

The plan for 2003 is to keep the cost down and use the same padlock on the barrier at the Environment Agency shingle haul road. All you have to do is renew membership and your car sticker for the charge of £2. New stickers will be available at Seagull Fishing Tackle or from our chairman Phil Tapp, each will have your membership number on it and will be signed by Phil. If by the end of November if you are spotted using the road with a out of date car sticker you will be asked to surrender your key.

AGM

This years Annual General Meeting will be held at St. Peters Church Hall (along side the Church) Roberts Road Greatstone.

4th December 7.30 pm.

All welcome to come along and help us discuss the future of sport fishing at Dungeness and the surrounding area. We would like to elect a larger committee and appoint more Bailiffs ...so if you are interested come along.

Why £2? The money we raise buys us insurance from the *National Federation of Sea Anglers* this gives each paid up member up to £5 million third party cover. This gives the E.A. some protection in allowing us to use their road which is a industrial site.

Yes I would like to rejoin the DAA for 2003.
